FLABIZCO

SMALL BUSINESS IT
TALLAHASSEE + NORTH FLORIDA

BUSINESS TECHNOLOGY, WITHOUT THE OVERKILL

Strong IT. Smarter Business.

Your shop, office, or real estate team has enough to do. We make the everyday technology work, without a server room or an in-house IT department.

Business email

Professional email and employee accounts, set up and kept organized.

Websites that work

A clean online presence that makes it easy for customers to reach you.

Reliable Wi-Fi

Safe, separate connections for your team, guests, and business devices.

PROFESSIONAL IT FOR THE SMALL BUSINESS YOU ACTUALLY RUN

Plans from $79/month

THE CORE PACKAGES

Start with what you need. Build from there.

No giant IT contract. No server required. Just practical help with the tools your small business already depends on.

NO WEBSITE REQUIRED

Business Essentials

A professional business identity, secure email, and someone to manage the accounts.

$79/month

$299 one-time setup

- Business domain and Microsoft 365 setup
- Professional email and common aliases
- Multifactor sign-in and email security setup
- Employee account onboarding and offboarding
- Routine password and account assistance
- Ongoing Microsoft 365 and DNS administration
- Up to 5 managed user accounts and 2 routine staff changes per month

Good for a small team that wants the basics handled correctly from day one.

ADD A PROFESSIONAL WEBSITE

Business Complete

Everything in Essentials, plus a website you can confidently send customers to.

$179/month

$999 one-time setup

- Everything in Business Essentials
- Mobile-friendly website with up to 5 pages
- Contact forms and lead capture
- Services, hours, location, and team information
- Basic search setup and social links
- Links to your existing scheduling or storefront tools
- Routine upkeep and up to 30 minutes of content edits per month

Website is built on Wix. Your business owns and pays for its own Wix subscription.

No surprises with subscriptions. Your business pays Microsoft 365 licenses, Wix, and domain fees directly. Our monthly rates cover the defined administration and management services. Computer help desk, hardware repairs, migrations, and advanced website work are quoted separately.

NETWORKING WITHOUT THE NONSENSE

Wi-Fi that keeps your business moving.

From the front counter to the back office, good Wi-Fi should just work. We design, install, and manage networking that fits the space you have.

NETWORK HARDWARE

From $499

One-gateway, one-switch, one-access-point starter configuration

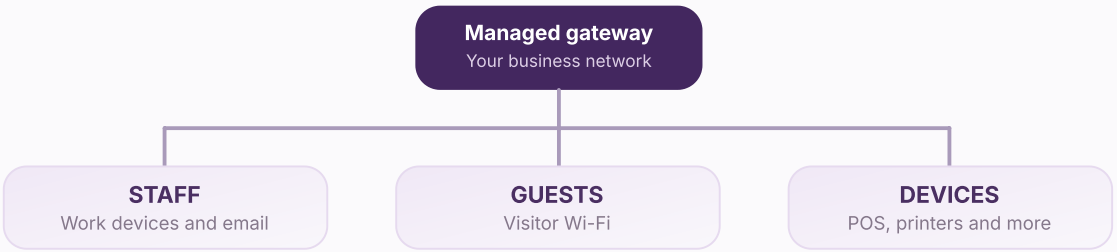

MANAGED NETWORK & WI-FI

From $149/mo

Monitoring and management for qualifying supported equipment

One location. Three sensible networks.

Keep the people visiting your business separate from the tools running it.

- Separate Wi-Fi for staff, guests, and business devices
- Router, switch, and access point installation
- Floor-plan review and wireless coverage planning
- Supported network monitoring, updates, and troubleshooting

Already have a network? We'll take a look and see where we can help. Proactive monitoring requires supported equipment. New cabling, installation labor, and additional hardware are quoted separately.

BRING IT ALL TOGETHER

Business Complete + Managed Wi-Fi

Professional email, website management, and a managed network, all under one local technology partner. Starting at one small-business location.

$328
per month

A LITTLE MORE HELP? WE'RE HERE.

It's the little tech problems that steal your day.

We work with small businesses every day. When something is outside your package, we'll explain the options and give you a straightforward quote.

Security cameras? We've got the setup.

Want eyes on the storefront or office? We'll help plan coverage and install a professional system.

- Camera and recording system installation
- Viewing app and portal setup
- Owner training and account handoff
- Best-effort help with existing equipment

Custom quote. You monitor and operate the cameras.

Computers acting up? Let's talk.

Need more than email and Wi-Fi? We also offer help desk and endpoint services suited to the number of devices you use.

- Workstation and new-device setup
- Remote and on-site troubleshooting
- Endpoint protection and security options
- Backup and data recovery planning

Scoped separately by users, devices, and needs.

Built for the businesses keeping North Florida moving.

Local shops
Front counters, business devices, staff access, and guest Wi-Fi.

Real estate teams
Email, shared files, agent changes, and mobile-friendly workflows.

Small offices
Cloud tools, laptops, printers, and everyday account support.

1. **Tell us what's happening**
   Start with a free IT assessment.
2. **Get a clear plan**
   We'll define the scope and price.
3. **Get back to business**
   We set it up and manage what you choose.

Ready to make IT one less thing?

Local people. Practical solutions. No enterprise-sized pitch.
